

Kontio styles

Kontio styles

Wood naturally carries an inimitable aura of warmth and grace. No wonder then that it continues to fascinate both construction professionals and people wishing to live in log homes.

Kontio uses wood to create architecture for our times. Kontio Styles is our concept of making it easier for you to find out what it is that you really want in a log home.

Kontio Classic

Rustic style

Products

Kontio Classic style products

- Classic internal doors
- Classic internal door handles
- Classic ceiling
- Classic round log floor skirting
- Classic architraves (inner and outer)
- Classic round log, flat cut

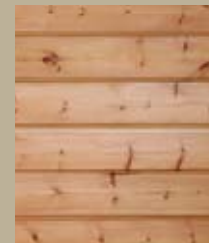

Kontio Classic style

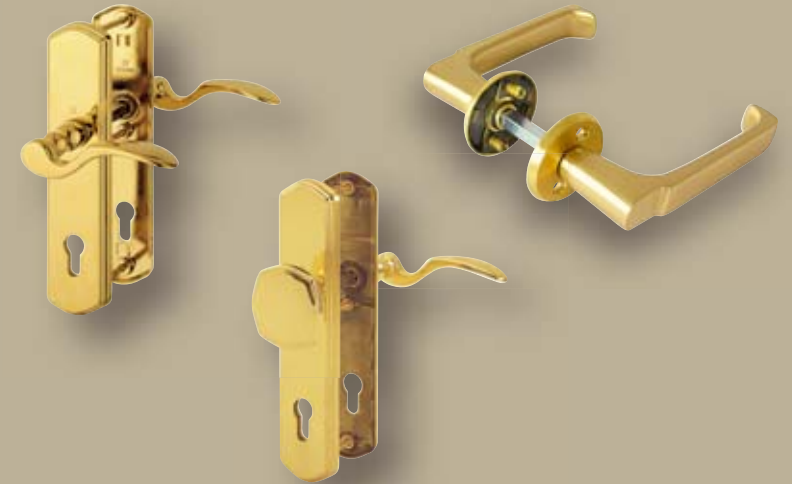

This style comes closest to what traditional log architecture is as reflected in churches or buildings from the days of national romanticism.

The interplay of lines and checkered patterns offers possibilities for both traditional and new approaches.

Your Kontio styles?

How about **your** preferences? What is your perception of an ideal Kontio home just for you?
There is no need for you to be confined to the options presented.

Change!

Is one of the styles **almost** the one for you? Except for the one or two items that you would like to have differently? Go ahead, the choice is yours!

Mix!

Do you find it difficult to make up your mind between the different styles? Don't worry! Just combine the best elements to produce the definitive solution for you.

Add!

Is there something missing in a style that you otherwise find attractive? Feel free to make additions as needed!

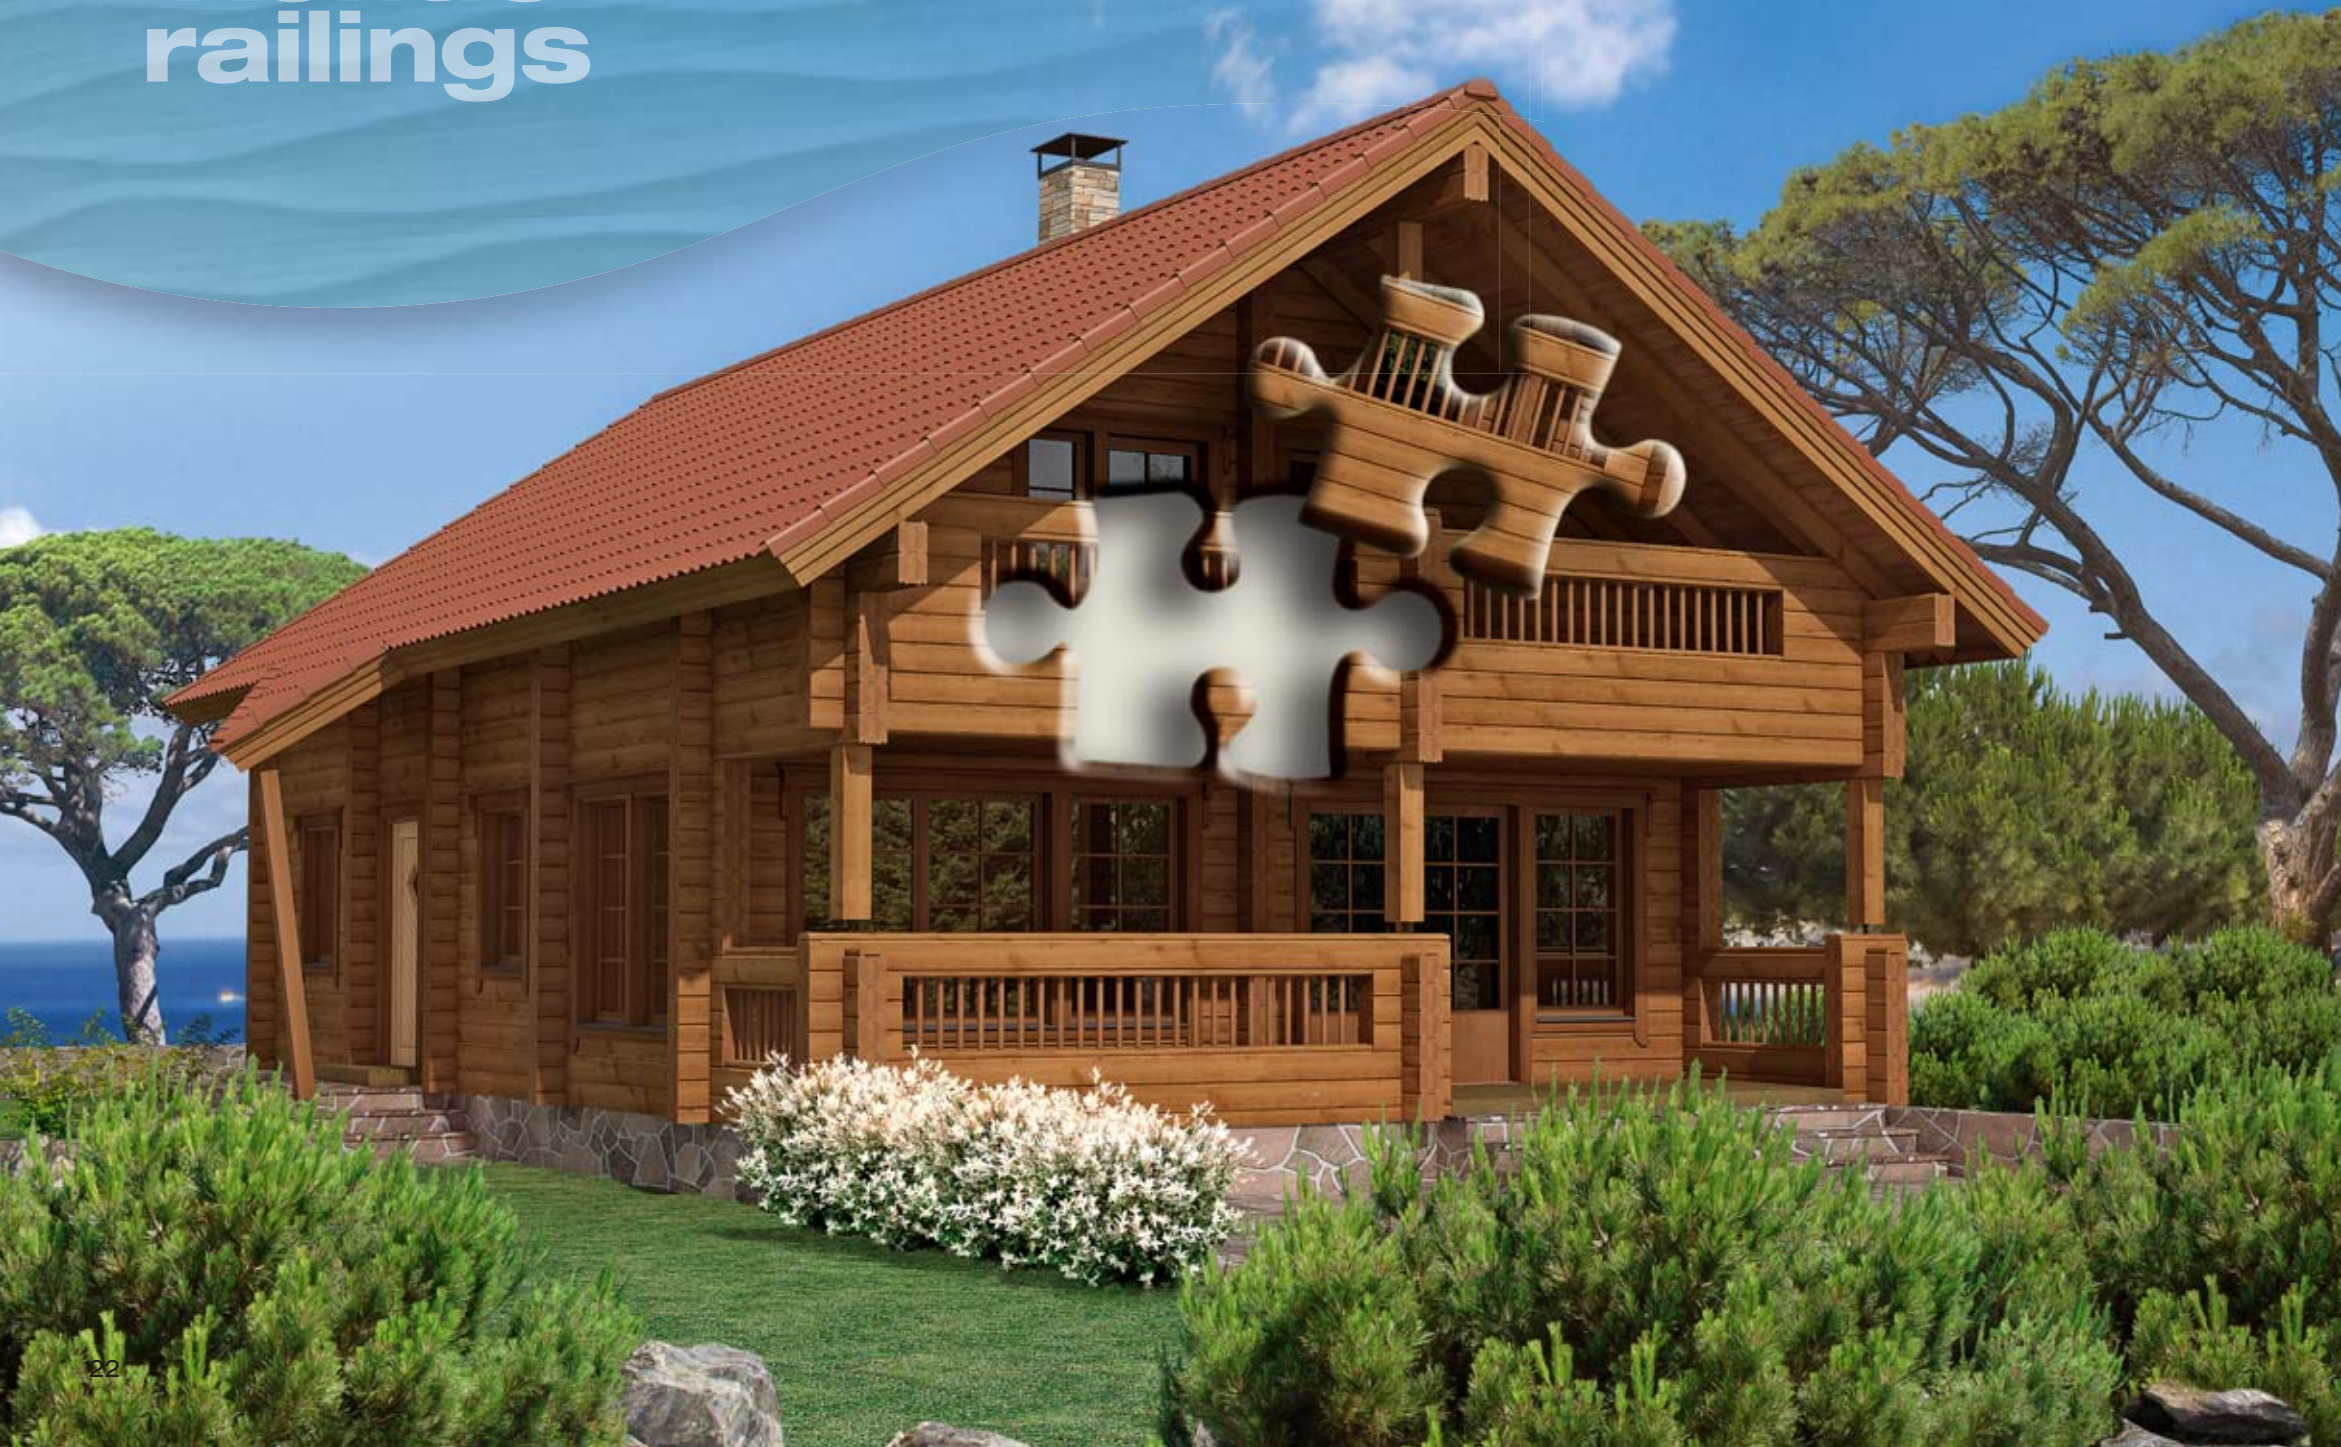

Create!

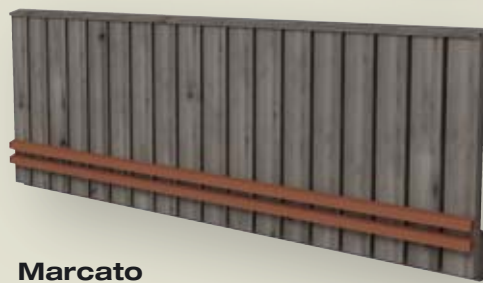

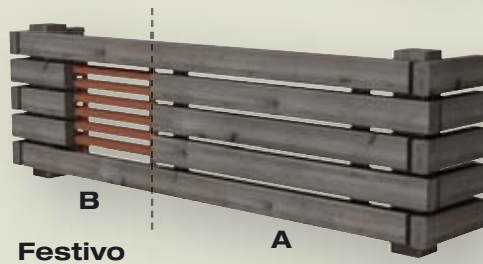

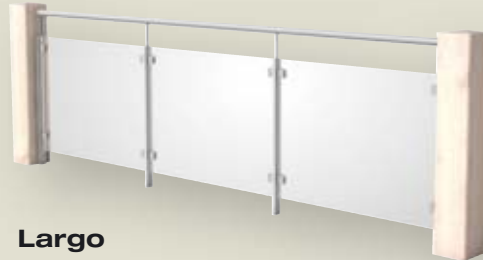

Fancy something different? Why not have a go at making your own masterpiece? Let your creativity run wild and see if the result is what you have always dreamed of.
